### SECOND DISAPPEARANCE IN STICKY PINES

Do you have any information that could help? Not just one, but two people have gone missing from the town of Sticky Pines. Trust me, this has never happened in a small town like this before. The beloved candy-store owner, Mandy Millepoids, has been reported missing; last seen birdwatching in Molasses Grove on September 1st. Factory worker, Alastair Chelon, was the first to be reported missing on August 17th. Owner of **The Sticky Times** is working with the authorities to help them in their search. He urges anyone who has information that could help to come forward. Is there something you can remember about these dates that seems strange? Hiding in our houses won't solve these mysteries. Something must be done to bring these people home.
